Officials authorised to sign for the Bank of Finland

All documents that are binding on the Bank of Finland must be signed by two Bank of Finland officials, one of whom must be an official on the list below. Authorization to sign is either based directly on the official's position or on a Bank of Finland decision.

In correspondence and agreements drafted in the national languages, the signatory name of the Bank of Finland should be written in the form of Suomen Pankki in Finnish or Finlands Bank in Swedish. For correspondence and official documents in other languages, the correct signatory name is Suomen Pankki–Finlands Bank.
